

In 5 steps you will create an account in NT2 school and activate the learning programs from your library.

Step 1

Go to www.nt2school.nl.

Do you already have an account in NT2 school? Click on Inloggen and log in.

If you don't have an account click on **Account aanmaken**

The screenshot shows the BoomSchool website interface. At the top left is the BoomSchool logo. At the top right is a blue button labeled 'Inloggen' with a user icon. Below the logo is a black navigation bar with a grid icon and the text 'MIJN WERKRUIMTE'. The main content area features a central graphic with three devices: a laptop on the left displaying a 'LINK+' interface, a desktop monitor in the center displaying a 'DIX' interface, and a laptop on the right displaying a 'DigLin' interface. A blue book titled 'De opmaat' is positioned in front of the monitor. Below the graphic, the text 'Welkom!' is displayed in a large, bold font. Underneath, a smaller line of text reads: 'Hebt u problemen bij het inloggen in de vernieuwde NT2 SCHOOL of is er iets met uw lesmateriaal? Bel of mail naar onze klantenservice: 020 5200126 of nt2@bua.nl.' At the bottom, there are two buttons: a blue 'Inloggen' button with a user icon and a white 'Account aanmaken' button with a right-pointing arrow.

Step 2

To see the website in English, click on the Dutch flag to change it to English.

Fill in your first name, last name and email address. Choose a password and repeat your password. Click on **Create your account**.

Step 4

Congratulations! You have now successfully activated your code. Click on **Open** to open the course materials.

Good luck with learning with the following programs:

DigLin+ is a digital literacy method for non-native young people and adults. The method is designed in such a way that any unskilled language learner can use it and still learn language and the Latin script in a mature and independent way. *DigLin+* is also interesting for more advanced learners up to B1 level that want to practice reading, writing, pump up their vocabulary and focus on the Dutch vocals.

The programs *LINK 0 > A2* and *LINK A2-B1* take learners from level 0 to B1, after which they will know about 5000 Dutch words and forms, which they can use in reading, listening, speaking, and writing.

KNM examentraining and *KNM oefenexamens* help you to prepare for the KNM-part of the inburgering.
